DIARY NOTES

DD/S [REDACTED]

6 January 1964

25X1A

1. At the Executive Committee Meeting this morning:

a. The Director said that his plans to go to Europe on or about 18 January, returning around 1 February, were still tentative. (He was not at all certain that he would go.)

b. The Director requested that [REDACTED] all of whom recently returned from [REDACTED] be debriefed. (I passed this on to Bob Bannerman.)

3. I talked to Mr. Kirkpatrick about downtown office space and emphasized to him that I thought we must make up our minds about what we are going to do, since the ball has been in our court for several weeks now. He said that he would check with General Carter and, if necessary, with Mr. McCone and would advise me very shortly. I gathered, however, that it was his personal inclination to try to pick up the two buildings recently offered by Heinz Abersfeller.

4. [REDACTED] and his people gave me a briefing on their R&D program. (I now understand it better but still do not have fixed in my mind sufficiently the exact purposes for which R&D money is being spent or for which it is being requested for Fiscal Year 1965.)

5. [REDACTED] was in to say goodbye since this was his last day on duty. I told him that we were arranging a party for him on 23 January and also that we had recommended him for a medal which I was sure would be forthcoming in due time. He was outgoing in his expressions of satisfaction concerning his service with and his treatment by the Agency. He said that, if he were needed at any time for a special study, he would certainly be available. I mentioned specifically the possibility of becoming a security associate. (I have passed this on to Bob Bannerman.)

6. I talked with Mr. Kirkpatrick about the Category III Executive Pay Scale position formerly reserved for the Assistant DD/I. He said that he would talk with General Carter about this and would advise me in the very near future. (Ray Cline has requested that this slot be retained and assigned to Jack Smith, Assistant Director for Current Intelligence.)
